*All applicants will compete in first two rounds of competition. Only those who circle "I WILL" will move on to the semi-final round if eligible. This gives contestants the opportunity to decide if they are ready to move through the competition and be sent to the national competition as the state winner. By choosing "WILL NOT" you will only compete in first two rounds even if you are the highest score. You may then compete again in the following year. If you choose to move on **and win** the contest, you are required to compete in the AFBF competition and are not eligible to compete again.
